Adventure Lift Altena Castle

Experience history differently,
traveling 90 m into the castle
rock, and 80 m to the top. The
Adventure Lift brings the
region's legends to life.

Adventure Lift
Altena Castle

A mythical journey ...

Discover a different side to Altena Castle. Pass through the "New Castle Gate" in the centre of Altena and enter a world full of myth and legend.

The past comes to life in the adventure tunnel. Characters from the legends will amaze and entertain you, and also make you shiver.

You will meet the Holy Einhard, Knight Eberhard and his brother, Alberich the dwarf and their friends. They are your loyal companions and will remain with you on the 90 m long interactive journey through time deep into the castle rock and 80 m up to the surface.

The Adventure Lift connects the town centre with Altena Castle, saving you the arduous walk up the hill which takes about 15 minutes. The lift takes you up to the height of the castle in only 30 seconds.

Amazing tales

Castle Lord Dietrich and his cheeky friend Burghard, the tunnel-dwelling bat, will welcome you personally. Make your way with them from the valley station up to the castle. One thing is for sure, you will be amazed at the stories they will tell.

At the end, the doors of the Adventure Lift open onto the upper courtyard of Altena Castle. Here you can witness life as a knight and enjoy the impressive museum collection.

The visitors

The Altena Castle Adventure Lift is great for all. Children and adults will have lots of fun in the mythical worlds, just as much as scaredy cats and adventurers of all ages.
